Product Features

Maxsteel Goodyear Welted Safety Boots

Maxsteel safety boot MS32 in brown colour.

These Maxsteel Full Grain Leather Goodyear Welted SBP Safety Boots are an excellent product with a number of essential safety features to benefit workers across many different industries.

They have been tested to EU Standard EN ISO 20345 for protective footwear and feature steel toe and midsole protection to keep feet safe from crush hazards and penetration.

The soles of the Maxsteel Full Grain Leather Goodyear Welted SBP Safety Boot are SRA slip resistant with anti-static properties, which are able to also withstand heat up to 300 degrees.

Conforms to EN ISO20345:2011 Safety Footwear Standards.

Features:

- Protective Toe Caps (S)
- EN345 compliant, providing toe protection against impact up to 200 joules and compression to 1.5 tonnes
- Slip Resistant (SR)
- Slip resistant footwear offers greater traction in slippery conditions
- Antistatic Protection (A)
- Manufactured using an antistatic compound to reduce the build-up of static electricity
- Energy Absorbing Heels (E)
- Heel energy absorption up to 20 joules
- Goodyear Welted Construction
- Goodyear Welt Construction is an extremely robust method of manufacture. The sewn welt secures the upper to the inner sole, the outer sole is then attached to the welt
- Oil Resistant Sole
