### What makes Connix different?

It's wireless – no need to plug in, it connects to the driver controls without those annoying wires that are always in the way.

"How does it power up?" We hear you ask - It's rechargeable! Charge for 4 hours for 10 hours of bright light.

It's magnetic – Swap between vehicles and machinery in a matter of seconds, and the best bit is that you don't need any tools to attach it.

It's multi-functional - You can use Connix as rear lighting, indicators, brake lights or to illuminate your number plate. It's made for the farm – Long lasting and extremely durable we created Connix with farmers in mind.
