## Product Features

### Autoglym Leather Care Balm

Extremes of hot and cold weather along with air conditioning can take their toll on your leather interior. Although designed to be very hard wearing, certain leathers can dry out over time and may crack.

Leather Care Balm ensures that your leather has the oils it requires, without leaving any unnatural gloss, sticky or greasy surface residues but a natural matt finish.

Use Leather Care Balm twice a year or following Leather Cleaner to keep your leather supple and crack free. In warmer climates you may require Leather Care Balm more often.

**Pro Tip:** Always use Leather Cleaner first to ensure Autoglym Leather Care Balm can fully absorb into a clean dry surface.

**Not suitable for use on household leather.**
