Product Features

Autoglym Leather Cleaner

Leather requires a special set of products to ensure these hard wearing, yet chemically sensitive surfaces, remain in perfect condition.

Autoglym Leather Cleaner will not add a shine to your seat, but leave it with a natural matt finish. It is free of silicones and other masking agents that can leave an unpleasant feel to your interior.

Leather care is simple, step 1 is to clean, step 2 is to protect. Leather Cleaner is a pH neutral solution that gently cleans, leaving a natural matt finish ready for protecting with Leather Care Balm.

Pro Tip: Apply Leather Care Balm following cleaning to keep leather supple and crack free

Leather Cleaner is not suitable for use on household leather.
