Product Features

The Fort Airflex Waterproof Jacket has been designed to offer the finest wet-weather comfort and protection. The material has been tested to independent standards, so you know it'll keep the rain out and as it's breathable it won't fog on the inside. To match that spec, we added a concealed hood, flapped waterproof pockets and an adjustable hem and sleeves.

The Fort Airflex Waterproof Jacket has the following specification:

- fully waterproof
- breathable PU tricot fabric
- concealed hood
- studded double storm flap
- extremely lightweight
- large pockets
- welded seams
- conforms to EN343 3:2
- Available in Navy Blue & Green

Available for home delivery or FREE click and collect from any of our [five branches](#).
