Product Features

The Fort Knox Safety Ankle Boots are smart and practical, made for long days on your feet on rough terrain or in demanding locations. Steel protects your toes and soles, padding eases the pressure at the back of your ankles, and anti-scut layers across the toes and heels keep your boots looking good.

The Fort Knox Safety Ankle Boots have the following features:

- EN ISO 20345: 2011
- S3 SRC
- leather WRU
- steel toe cap
- steel anti penetration midsole
- textured rubber coated scuff cap and heel kicker
- padded collar
- dual density PU sole

Available for home delivery or FREE click and collect from any of our [five branches](#).
