Brand: **Grubs Boots**

## Product Features

The Grubs Midline Boots are insulated and waterproof, with excellent grip, made for all day comfort. The ankle height boot is perfect for those who do not enjoy wearing a full length wellington but do not want to compromise on the quality.

The Grubs Midline Boots have the following features:

- Trak sole pattern – deep tractor like tread gives powerful traction on soft ground with prominent heel for downhill braking.
- Hexzorb Technology – insert in the heel that acts like shock absorber and reduces impact pressure on hard surfaces.
- 6mm Nitrocell Footbed – provides soft cushioning for an athletic shoe feel. A million microscopic nitrogen bubbles that insulate the wearer from cold surfaces.
- Comfort Rating -10°C to +20°C
- 5mm INSU-FOAM ULTRA™ - gives all round foot comfort and insulation.
- Superdri lining - is hard wearing, wicks moisture away from the wearer's foot to prevent a sweaty and uncomfortable feel. It is fungus and rot proof so will not smell like cotton-lined boots.
- Underfoot Chassis - gives a sure footed platform. GRUB'S Midline Boots - Green are available for home delivery or FREE click and collect from any of our [five branches](#).
