

KENT & STOWE TELESCOPIC BYPASS LOPPERS

£37.99

Product Type: **Garden Tools**
Brand: **Kent & Stowe**

Product Features

Kent & Stowe **Telescopic Bypass Loppers** are used to cut delicate stems as well as other pruning tasks. These loppers include premium ground carbon steel blades with non-stick PTFE coating for rust resistance and a smoother cut.

Loppers are ideal for larger stems or branches that are out of hands reach or too large to cut with secateurs, requiring 2 hands. Bypass action loppers have 2 sharpened blades that pass over each other to make a precise clean and healthy cut. Ideal for rose bushes, shrubs and general pruning of green live wood.

- Sap groove to direct sap away from the blades to prevent them from sticking
- Shock absorbing function for added comfort while cutting
- Aluminium lightweight handles with non-slip comfort grip
- To keep these blades in good condition wipe with an oiled cloth after each use and sharpen when necessary
- Easy to use telescopic handles with 6 locking positions; adjustable from 650mm to 900mm
- Cutting diameter: 45mm
- 5 year guarantee

The Kent & Stowe Telescopic Bypass Loppers are available for home delivery or FREE click and collect from any of our [five branches](#).
