

KENT & STOWE PROFESSIONAL BYPASS SECATEURS

£19.99

Product Type: **Garden Tools**
Brand: **Kent & Stowe**

Product Features

Kent & Stowe **Professional Bypass Secateurs** with high quality SK5 carbon steel heat treated blades. This ensures a smoother and cleaner cut while also giving good resistance to rust. The secateurs also include a sap groove, wire cutting notch and a blade alignment system. Featuring a dual position catch allowing you to adjust the span of the handles for comfort in use for both smaller and larger hands. Ideal tool for deadheading, cutting and pruning.

- Wire cutting notch to cut wires without dulling the blades
- Sap groove to direct sap away from the blade and prevent them from sticking
- Rubber cushioned shock absorbers provide smooth working and soft closing
- Drop forged aluminium lightweight handles with non-slip comfort grip
- Cutting diameter: 20mm

The Kent & Stowe Professional Bypass Secateurs are available for home delivery or FREE click and collect from any of our [five branches](#).
