Product Type: **Petrol Handheld**

Brand: **STIHL**

Product Features

The **Stihl FS111R Brushcutter** is the ideal **landscaping power tool** for cutting large areas of tough grass.

The FS111R comes with an **AutoCut mowing head**, you can simply tap the head on the ground to renew the line as it wears, ensuring maximum cutting performance at all times.

A **larger tank** on the engine means you will find yourself stopping this machine less frequently to top up. Also included is a **manual fuel pump** that delivers fuel to the carburettor at the touch of a button, minimising the number of starting strokes needed after extended breaks in operation.

The STIHL FS111R brushcutter is comfortable to use even over a long period of time as it comes supplied with a single shoulder harness.
