

HONDA HRX476 HY 47CM VARIABLE SPEED PETROL LAWN MOWER

£1,260.00 £1,130.00

Product Type: **Walk Behind Mowers**
Brand: **Honda**

Product Features

Honda HRX476 HY durable petrol mower with hydrostatic drive allows you to cut at your own pace.

Honda **HRX476 HY mower** is a self-propelled lawn mower that makes mowing even the largest of lawns effortless. Does your garden feature slopes or rough terrain?

The hydrostatic variable speed technology is unmatched in quality and accuracy. Honda's hydrostatic drive offers the user truly variable speed for ultimate control.

The fine level of control is matched in the machine's finesse, fitted with a patented **low-noise blade**. It was designed to be quieter than standard mower blades.

In addition, the HRX476 features **Honda's industry-leading 4-stroke engine** and a **high-quality cutter deck** design. For optimum mulching effectiveness, grass clippings must be small enough to access the roots of plants and minimise the thatch formation. To achieve this, the HRX 476 HY mower uses the MicroCut system. It features **two blades, ensuring the grass gets cut twice and is as small as possible**.

The **Versamow system** gives you total control over the mulching process, by using an adjustable window between the cutting area and the collection bag.
