**~~£457.00~~ £379.00**

Product Type: **KombiSystem Handheld**  
Brand: **Honda**

## Product Features

### Honda UMC425 25CC Power Head Versatool

#### Switch, lock and go

The multifunctional gardening tool which does it all. We designed our Versatool to tackle a wide range of garden tasks. With a 4-stroke engine at its heart and eight push-and-click attachment options, it's the ultimate gardening tool.

A lot of thought has gone into the user friendly design and safety features that make this tool so easy to use. From the clever joint system to connect the attachments and little innovations within the all-important engine, our heritage of engineering ensures each component is made to the highest possible quality.

The six-splined transmission shaft gives more torque and less chance of shaft breakage. With a 25cc engine, accompanied by a D-loop handle and a single strap harness - comfort comes first.

Honda UMC425 25CC Power Head Versatool is available for home delivery or FREE click and collect from any of our [five branches](#).
