Product Features

Honda UMK435 brushcutter - manoeuvrable, versatile and interchangeable.

The UMK 435 brushcutter will make light work of unkempt undergrowth and hard to reach areas around the garden. With Honda's brushcutter range, there will be no stubborn undergrowth left to hide.

You can confidently go where no other brushcutter can, with our extremely reliable 4-stroke garden tools.

Honda's brushcutters also feature an extraordinary type of non-contact bearing - so special, it is even used by the likes of NASA. These bearings are known for their resistance to dust contamination. They are fantastic for high-speed work but are also extremely quiet.

The **Honda UMK435 brushcutter** is available for home delivery or free click and collect from any of our [five country stores](#).
